SUMMARY

Frontend developer with a strong foundation in JavaScript, TypeScript, React, and Angular, building production web applications for digital health, enterprise, and consumer products. Proven track record of leading teams and mentoring developers to deliver successful projects. Specialized in API integration, realtime features, and role-based access.

EXPERIENCE

Frontend Developer

Doorkita Technologies | Contract | Oct 2025 - Present

- Frontend developer on a multi-tenant digital health platform (EHR, telemedicine, lab and pharmacy networks, insurance suite), working alongside a product designer, a backend developer and a mobile developer.
- Build and maintain the main clinical application (Angular, Angular Material, Sass) and the public React site at doorkita.com.
- Integrated dozens of REST APIs across clinical, lab, pharmacy and insurance workflows, with realtime WebSocket chat and video consultations on the Agora Video SDK.

Founder & Mentor

LevelUp (developer community) | Part-time | Apr 2025 - Present | Lagos

- Founded a community of aspiring developers and mentor them from fundamentals to shipping real projects.
- Led the build of the LevelUp learning platform with two community students; it is live, used by community students, and now run day to day by the two students.

Frontend Developer

Encentral Solutions Limited | Full-time | Jan 2025 - Dec 2025 | Abuja

- Built and maintained enterprise systems for Nigerian federal institutions with Angular and Angular Material: the NDIC Bank Liquidation Management System, the NSIA Procurement System and the NAQS Aquatic System.
- Delivered production-ready features through the full development lifecycle in a cross-functional team (frontend, backend, design, QA), one branch per feature, under strict documentation and architecture standards.
- Implemented warning messages and states across entire systems so users get clear, consistent feedback wherever they could go wrong.

Frontend Developer Mentor

Kodespot | Part-time | May 2024 - Present | Ilorin

- Mentor students in frontend development from HTML and CSS fundamentals to advanced framework work and real-world projects.
- Keep the curriculum aligned with what the industry actually hires for.

Frontend Developer Intern

Encentral Solutions Limited | Jun 2024 - Nov 2024 | Abuja

- Built an employee management system with Angular and TypeScript on a five-developer team.
- Learned team-based workflows and version control through weekly assignments and real contributions.

Frontend Developer Intern

Softrays IT | Jun 2023 - Nov 2023 | Ilorin

- Trained intensively on frontend fundamentals and built small-scale projects with HTML, CSS and JavaScript.
- Applied UI/UX principles in wireframing and prototyping, and completed the Meta Frontend Developer course on Coursera.

PROJECTS

Doorkita (Digital Health Platform) | doorkita.com | Oct 2025 - Present

- A multi-tenant digital health platform connecting hospitals, clinics, labs, pharmacies, insurers and patients, covering the EHR, telemedicine, lab and pharmacy networks, and an insurance suite.

- Built role-based access and routing across 7+ user types, realtime provider-patient chat, and video consultations on the main Angular clinical application.

Kostody (Phone Repair Trust Platform) | kostody.vercel.app | Launched 2026

- A phone repair platform that turns every repair into a locked, tamper-proof record both sides can trust: time-stamped condition photos, PIN-locked quotes, and a live shared record.
- Designed the product and built the React apps and the backend on Prisma and Supabase (PostgreSQL), with the customer PIN stored scrambled. Live with its first repair engineer.

LevelUp (AI personalized Learning Management System) | levelup-curriculum.vercel.app | Apr 2025 - Present

- AI-driven learning platform that generates a personal course catalog per student, with adaptive assessments, AI feedback, and XP, levels and token rewards.
- Built with two community students: React frontend, Express backend on Supabase, and the AI generation layer on Google Gemini and Groq.

NDIC BLMS (Bank Liquidation Management System)

Encentral Solutions Limited

- Collaborated with a cross-functional team of developers to build the frontend of the bank liquidation management system of the Nigeria Deposit Insurance Corporation, using Angular and Angular Material.
- Contributed to the development of complex, responsive user interfaces for managing critical financial liquidation data, with backend API integration.
- Implemented warning messages and states across the whole system so human errors are caught clearly and consistently.

NSIA Procurement System

Encentral Solutions Limited

- Maintained and applied updates to the production procurement management system.
- Collaborated with cross-functional teams to implement new features and resolve system issues.
- Ensured system reliability and optimal performance for end users.

NAQS Aquatic System

Encentral Solutions Limited

- Implemented system updates and feature improvements based on user requirements.
- Collaborated with backend and QA teams to ensure seamless system functionality.
- Optimized system performance through regular maintenance and code reviews.

Web3 hackathon builds | github.com/Freedteck

- Vurso (Angelhack X Hedera): on-chain developer Q&A platform with token tipping and bounty questions.
- Vibetrax (Angelhack X Moveathon): music NFT platform on IOTA with Move smart contracts and NFT minting for artists.
- Propatradex (Angelhack X Moveathon): real estate platform on IOTA with blockchain features in traditional property workflows.
- Event Pass (Encode Club): NFT attendance passes on Solana with QR ownership verification and token-gated dashboards.

EDUCATION

Bachelor of Engineering in Computer Engineering

University of Ilorin | Ilorin, Nigeria | 2024

SKILLS

Core Skills: HTML, CSS, JavaScript, TypeScript, React, CSS Modules, Tailwind CSS

Additional Skills: Angular, Next.js, SASS, Kotlin

Tools: Git, GitHub

Blockchain Technologies: dApp Development, Web3 Integration, Smart Contract Integration

UI/UX Design: Wireframing, Prototyping

CMS & SEO: WordPress, SEO

Soft Skills: Leadership, Mentorship, Collaboration, Adaptability, Communication, Problem-solving
